Household income is the total gross income received by all working members of your household, before taxes or any other deductions. Household size is the number of people living in the household that the family income is supporting. Charges are made to each participant individually with respect to their individual income.

Hearts & Homes may request verification of current income status of persons participating in the divorce workshop. (Either last year's W2s or a person's last 3 paystubs are required documentation. If the participant is a sole proprietor, a schedule C will also need to be included with the participant's verification documentation & an evaluation determination will be made by the executive director.)

Payment is to be received before the workshop begins. **If payment is not received prior to or at the start of the workshop, or cancellation is made without 24 hr notice (for any reason), you will be billed the full amount.**

If the payment schedule is not possible for an individual's current financial hardship situation, officers of Hearts & Homes may use their discretion to alter charges and/or create a payment plan as they deem as appropriate.
